Contents

Number 1, January 1982

Robert A. Daniels and Jere H. Lipps: Distribution and ecology of fishes of the Antarctic Peninsula 1

Thomas T. Veblen: Regeneration patterns in *Araucaria araucana* forests in Chile 11

D. G. Green: Fire and stability in the postglacial forests of southwest Nova Scotia 29

W. A. Rodgers, C. F. Owen and K. M. Homewood: Biogeography of East African forest mammals 41

Richard N. Melzack and David Watts: Variations in seed weight, germination, and seedling vigour in the yew (*Taxus baccata*, L.) in England 55

J. Crowther: Ecological observations in a tropical karst terrain, West Malaysia. I. Variations in topography, soils and vegetation 65

Conrad J. Bahre and Thomas H. Whitlow: Floristic and vegetational patterns in a California dredge field 79

Book reviews; Erratum; Announcement 91

Number 2, March 1982

Paul K. Dayton, William A. Newman and John Oliver: The vertical zonation of the deep-sea Antarctic acorn barnacle, *Bathylasma corolliforme* (Hoek): experimental transplants from the shelf into shallow water 95

J. S. Bunt, W. T. Williams and N. C. Duke: Mangrove distributions in north-east Australia 111

R. C. Rounds: Spatial relationships of sympatric populations of wapiti and moose (Cervidae) on winter range in Manitoba 121

Barry R. Wallerstein and Richard C. Brusca: Fish predation: a preliminary study of its role in the zoogeography and evolution of shallow water idoteid isopods (Crustacea: Isopoda: Idoteidae) 135

R. J. Morley: A palaeoecological interpretation of a 10,000 year pollen record from Danau Padang, Central Sumatra, Indonesia 151

Book reviews 191

Number 3, May 1982

Martin Kellman and Kiyoko Miyanishi: Forest seedling establishment in Neotropical savannas: observations and experiments in the Mountain Pine Ridge savanna, Belize 193

Mary Robinson: Diatom analysis of Early Flandrian lagoon sediments from East Lothian, Scotland 207

M. G. Hill and D. McC. Newbery: An analysis of the origins and affinites of the coccid fauna (Coccoidea; Homoptera) of Western Indian Ocean islands, with special reference to Aldabra Atoll 223

Richard N. Melzack and David Watts: Cold hardiness in the yew (*Taxus baccata* L.) in Britain 231

M. J. Samways and K. Harz: Biogeography of intraspecific morphological variation in the bush crickets *Decticus verrucivorus* (L.) and *D. albifrons* (F.) (Orthoptera: Tettigoniidae) 243

J. B. Kirkpatrick: Phytogeographical analysis of Tasmanian alpine floras 255

Book reviews 273

J. B. Kirkpatrick: Phytogeographical analysis of Tasmanian alpine floras 255

Book reviews 273

Number 4, July 1982

Reginald Victor and C. H. Fernando: Distribution of freshwater Ostracoda (Crustacea) in Southeast Asia 281

Stephen D. Busack and Fabian M. Jaksić: Ecological and historical correlates of Iberian herpetofaunal diversity: an analysis at regional and local levels 289

Rob Hengeveld and Jaap Haeck: The distribution of abundance. I. Measurements 303

Ann F. Johnson: Dune vegetation along the eastern shore of the Gulf of California 317

Robert A. Browne and Gene H. MacDonald: Biogeography of the brine shrimp. *Artemia*: distribution of parthenogenetic and sexual populations 331

R. Buckley: The habitat-unit model of island biogeography 339

F. V. Dunkel, A. V. Barak and P. K. Harein: Geographical distribution of *Cynaeus angustus* (LeConte) (Coleoptera: Tenebrionidae) and its association with stored products 345

Patrick Armstrong: Rabbits (*Oryctolagus cuniculus*) on islands: a case-study of successful colonization 353

Olli Järvinen: Species-to-genus ratios in biogeography: a historical note 363

Number 5, September 1982

M. N. Ben-Eliahu and U. N. Safriel: A comparison between species diversities of polychaetes from tropical and temperate structurally similar rocky intertidal habitats 371

W. F. Humphreys and D. J. Kitchener: The effect of habitat utilization on species–area curves: implications for optimal reserve area 391

R. J. Reader: Variation in the flowering date of transplanted ericaceous shrubs in relation to their flowering season 397

Jake Rice and Renè J. Belland: A simulation study of moss floras using Jaccard's coefficient of similarity 411

Nicholas J. Gotelli and Lawrence G. Abele: Statistical distributions of West Indian land bird families 421

H. Pount and J. C. Revel: Influence de la nappe phréatique sur la répartition d'une espèce en terrain salé *Limonium diffusum* (Pourret) Kuntze, Plumbaginaceae 437

Number 6, November 1982

Maria R. Miracle: Biogeography of the freshwater zooplanktonic communities of Spain 455

R. Bonnefille, D. Lobreau and G. Riollet: Pollen fossile de *Ximenia* (Olacaceae) dans le Pléistocène Inférieur d'Olduvai en Tanzanie: implications paléoécologiques 469

David C. Hockin: Experimental insular zoogeography: some tests of the equilibrium theory using meiobenthic harpacticoid copepods 487

Howard W. Mielke and Paul W. Mielke, Jr: Termite mounds and chitemene agriculture: a statistical analysis of their association in southwestern Tanzania 499

A. V. Milewski: The occurrence of seeds and fruits taken by ants versus birds in mediterranean Australia and southern Africa, in relation to the availability of soil potassium 505

Timothy G. Hunt and H. J. B. Birks: Devensian late-glacial vegetational history at Sea Mere, Norfolk 517
